DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification,

-page 1, before line 2, --FIELD OF THE INVENTION—has been inserted;

-page 1, between line 3 and line 4, --BACKGROUND OF THE INVENTION—has been inserted;

-page 2, between line 5 and line 6, --SUMMARY OF THE INVENTION-- has been inserted;

-page 2, between line 25 and line 26, --BRIEF DESCRIPTION OF THE DRAWINGS—has been inserted;

-page 3, between line 5 and line 6, --DETAILED DESCRIPTION OF THE PREFERRED EMBODIMENT--.

In the Claims,

-In claims 6 and 12, lines 2 and 3, respectively, "a first pass diode" has been changed to --a second pass diode—and "a second pass diode" to --a first pass diode--.

-In claim 8, line 1, "claim 2" has been changed to --claim 3--.

-In claim 9, line 3, "the" before "voltage signal" has been changed to -- a --.

-In claim 18, line 10, after “based”, --on—has been added.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a system and method for configuring a regulator circuit having a sample-and-hold circuit having, inter alia, means for sensing an output voltage at an output node coupled to the sample-and-hold circuit; means for determining whether the input voltage at the input node is greater than the output voltage at the output node; and means for providing a sample-and-hold function based on the determination (claims 1 and 18); wherein a transfer function of the sample-and-hold circuit is pseudo-all-pass if the input voltage at the input node is greater than an output voltage at the output node and is a substantially constant signal if the input voltage at the input node is less than the output voltage at the output node (claim 11). The remaining claims 2-10 and 12-17 are allowed by virtue of their dependencies from the independent claims. Hence, the examiner has allowed claims 1 through 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
